Q: Skills for Success

NEW

HIGH ELEMENTARY TO ADVANCED (A2–C1)
SERIES EDITORS: ANN SNOW, LAWRENCE J. ZWIER, AND CHERYL BOYD ZIMMERMAN

Think critically. Succeed academically. Introducing the course that connects critical thinking, language skills, and student learning outcomes.

Q: Skills for Success is Oxford’s first two-strand English course. The Reading & Writing and Listening & Speaking strands can be used separately or together to form a complete 200-hour programme at each level. Q’s question-centred approach provides a unique critical thinking framework for each unit. This develops key cognitive skills such as analyzing, synthesizing, and evaluating – in addition to developing language skills that are essential for academic success.

Q puts more emphasis on student learning outcomes than any other paired skills English series. Learning outcomes are clearly labelled at the start of each unit and reviewed again at the end of the unit. This helps students to become more responsible learners.

Reading and listening texts feature revealing facts, theories, and stories. They expose students to light academic content and inspire them to formulate an individual voice around the unit topic.

Learning outcomes are clearly stated at the start and end of the units. Research has indicated that students are more likely to master subject matter if clear expectations are communicated to them for how they will be asked to demonstrate the learning. (University of Miami)

Thought-provoking unit questions provide a clear focus for the units and encourage students to think critically from the start.
